

FMSG Lab draw policy

- Lab drawn at our site will be sent to Bio Reference lab which typically is covered under most insurances. This is a courtesy service provided to me.
- I will alert the doctor's office (FMSG) staff ahead of time if I would like to go to LabCorp or Quest and get lab drawn at those facilities so appropriate order can be generated and given to me.
- It is my responsibility to check with my insurance ahead of visits if my labs are covered. I will not hold the doctor's office responsible if lab charges are partially covered or not covered.
- I will not call doctors office for lab related bills as the office cannot help with that but will reach out to the lab or my insurance.
- Lab results will be published on portal in 5-7 days along with doctors recommendations. Anything critical or significant I will call and schedule a follow-up on the lab management. (We do not call or discuss labs with patients via phone and thus provide portal with recommendations or schedule follow ups)
- Please sign this and hand it to the phlebotomist.
